

## Home Starter Baskets

A great opportunity for businesses, classrooms or groups to help end homelessness

When people move out of homelessness, they often need to re-build their lives from scratch. They are often missing the simplest items needed to get by. Home Starter Baskets include a range of comfort items and smaller household necessities that help make a house a home.

The SUN Home Starter Basket is an awesome opportunity for community groups, classrooms and businesses to show their support for people escaping homelessness. Putting together a Welcome Box helps a person in need put their life back together.
